This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

LEGAL WORKS BY LEONARD A. JONES.

A Treatise on the Law of Mortgages of Real Property. 2 vols. 8vo. 860 pages each.

A Treatise on the Law of Railroad and Other Corporate Securities. 1 vol. 8vo. 750 pages.

A Treatise on the Law of Mortgages of Personal Property. 1 vol. 8vo. 750 pages.

A Treatise on the Law of Pledges, including Collateral Securities. 1 vol. 8vo. 634 pages.

A Treatise on the Law of Liens at Common Law by Statute, Equitable and Maritime. 2 vols. 8vo. 725 pages each.

These works, treating of the three forms of security upon property, — Mortgages, Pledges, and Liens, — while separately complete, have been prepared with a view to the relations of the subjects to each other; and each treatise contains references to the others, so that all together constitute one work upon the subject of Property Securities.

Forms in Conveyancing. Comprising Precedents for Ordinary Use, and Clauses adapted to Special and Unusual Cases. With Practical Notes. 1 vol. 8vo. 830 pages.

The latest editions of the above works for sale by

CHARLES C. SOULE,
15½ BEACON STREET, BOSTON.

AN INDEX

TO

LEGAL PERIODICAL LITERATURE

BY

LEONARD A. JONES, A.B., LL.B. (HARV.)

Index-learning turns no student pale,
Yet holds the eel of science by the tail.

POPE: *Dunciad.*

PREFACE.

I HAVE attempted in this Index to refer to the articles relating to matters of law and legislation contained in the whole body of periodical literature in the English language published prior to January, 1887. To this end I have included references to the articles, papers, correspondence, annotated cases, and biographical notices in the legal journals of America, England, Scotland, Ireland, and the English Colonies; and to such articles in the principal literary reviews and magazines of these countries as seemed to belong properly to legal literature. I have also included references to the papers and proceedings of the American Bar Association, and of the various State Bar Associations; and also references to such of the papers and transactions of the English and American Social Science Associations, and of the Statistical Society, as seemed to come within the scope of this Index.

I have given much attention to references to biographical articles relating to distinguished judges and lawyers, both living and deceased. Accordingly, such notices in all the journals and reviews, which seemed to be of value, even when brief, have been referred to. Moreover, all the reports of the American courts, some three thousand volumes, have been examined volume by volume, in order to make references to the proceedings in court and eulogies upon the occasion of the decease of eminent judges and lawyers. Generally, in references to biographical notices, the date of the birth and of the death (of deceased persons) is given after the names, thus serving to identify those referred to, and at the same time to afford in the Index itself this item of information.

For the means of finding the articles relating to law and legislation in the literary periodicals published prior to 1882, I am much indebted to Mr. Poole's admirable Index; but all these articles have been examined in the periodicals themselves, in making the references in the present Index; and some of the principal reviews and magazines have been examined throughout, to select the articles referred to.

146223

Digitized by Google

The names of the authors of the articles indexed have been given whenever they could be ascertained. To obtain the names of authors of articles which had appeared anonymously in the law journals, I sent circulars of inquiry to many legal authors, and to the editors of law journals, and received numerous replies. I regret, however, that the titles of so many articles appear without their authors' names.

One hundred and fifty-eight different law journals and reviews have been indexed; and also the articles relating to matters of law and legislation, and to biographies of judges and lawyers, in one hundred and thirteen of the principal American, British, and Colonial literary magazines and reviews. The number of volumes of law periodicals indexed is thirteen hundred and seventy-three; and the articles pertaining to law and legislation in upwards of forty-four hundred volumes of literary and historical periodicals, are also included.

Of course the editor has been obliged to use his discretion in selecting the articles to be indexed from the periodicals which publish many short articles. In many instances brief articles have been referred to because they seemed to be of value, while others of sufficient length to be referred to have been omitted because they seemed to be of merely temporary or local interest. It was thought better, however, to err by including unimportant articles, than to err in omitting those of value.

I commenced this work with the conviction that a great store of papers and articles was hidden and neglected in the legal journals and reviews which could be made valuable to lawyers and legislators by an index. Now, at the completion of the work, after a hasty examination of the whole mass of this literature, I am more impressed with its practical usefulness. Many minor topics of the law, which are wholly neglected or only briefly treated in the text-books, are often fully and exhaustively treated in the legal journals by able lawyers. The list of Authors of Articles shows that the great mass of the contributions to these periodicals has been made by lawyers and judges who are not authors of text-books, and who have not published their articles in any other form. I wish particularly to call attention to the valuable papers published by the various Bar Associations and by the Social Science Associations.

L. A. J.

BOSTON, Dec. 14, 1887.
